

Order Picker / Stock Picker - Knowledge Check

29 CFR 1910.178(l)

Employee: _____ Date: _____

1. The main difference with an order picker is that:

- ☐ A. The operator is elevated with the platform
- ☐ B. It has no forks
- ☐ C. It cannot enter aisles
- ☐ D. It has front-wheel steering only

2. When required by the truck/manufacturer, the operator should use:

- ☐ A. The approved fall-protection/restraint system and anchorage
- ☐ B. Any convenient rack beam
- ☐ C. A rope tied to product
- ☐ D. No restraint if the aisle is narrow

3. If an item is out of reach, the operator should:

- ☐ A. Reposition rather than overreach
- ☐ B. Stand on the guardrail
- ☐ C. Disconnect the restraint
- ☐ D. Lean farther out

4. People should be kept:

- ☐ A. Clear of the area below/around the elevated work platform
- ☐ B. Directly under the platform
- ☐ C. Inside the rack bay
- ☐ D. On the forks

5. Overhead hazards can include:

- ☐ A. Rack beams, sprinklers, pipes and structure
- ☐ B. Only the ceiling
- ☐ C. Only lights
- ☐ D. Only outdoor power lines

6. Platform floor should be:

- ☐ A. Kept clear and loads stable
- ☐ B. Used to store loose debris
- ☐ C. Covered with oil for easier sliding
- ☐ D. Overloaded if needed

7. Emergency lowering procedures should be:

- ☐ A. Known before work at height
- ☐ B. Learned after a failure
- ☐ C. Kept only by maintenance
- ☐ D. Ignored if batteries are charged

8. Travel with the platform elevated should:

- ☐ A. Follow manufacturer and employer rules
- ☐ B. Always be done at full speed
- ☐ C. Never consider overhead clearance
- ☐ D. Be decided by the operator alone

Order Picker / Stock Picker - Knowledge Check

29 CFR 1910.178(l)

9. Fall-protection equipment should be inspected:

- ☐ A. Before use according to the employer/manufacture program
- ☐ B. Only annually
- ☐ C. Only after a fall
- ☐ D. Only by purchasing

10. This course replaces practical training/evaluation.

- ☐ A. False
- ☐ B. True

Equipment-specific formal instruction. Practical training and workplace evaluation are required; fall protection must follow the truck/manufacture and employer requirements.
